Address: 6 Kent Crescent, Palmerston North, 4412
Github Username: BryonyGatehouse

I am an organised and reliable worker who enjoys learning new ideas and methods. I am quiet, self motivated and hardworking, able to put my head down and get on with work.

Skills

In my classes I have learnt Java, C, C++, and Processing. I also have taken Calculus in highschool and other maths courses at University.

Though I haven't yet used any of these skills in a personal project, I have used them multiple times to successfully complete various assignments.

I have done numerous personal Creative Writing projects and am a keen member of the Storycraft Club at Victoria.

Work Experience

Paid Summer Internship at AgResearch Grassland Campus doing a computer audit for the IT Department. (2018-2019)

Education

2018 Victoria University of Wellington, Wellington - Software Engineering, First Year

A+ Intro to Computer Graphics (CGRA151)

A+ Intro to Data Structures and Algorithms (COMP103)

A+ Engr Modelling and Design (ENGR110)

A- Engr Math with Logic and Stats (ENGR123)

A Engineering Technology (ENGR101)

A+ Engr Mathematics Foundations (ENGR121)

A+ Intro to Comp Programming (COMP102)

A Cybersecurity Fundamentals (CYBR171)

2019 Victoria University of Wellington, Wellington - Software Engineering, Second Year

Grades so Far:

A+ Algorithms and Data Structures (COMP261)

A- Engineering Science (ENGR141)

A+ Systems Programming (NWN241)

A+ Software Development (SWEN221)

(details of projects completed can be seen on Github)

Soft Skills

EVENTO (high school version of WOW)

Performance Prize 2016 and 2017

Entered 2015 as well. Ten weeks to design and create a stunning piece of wearable art with a group and also doing school work.

Leader of Youth Group at Church

Helper in the Children's program and a leader in the youth group at the local church.

University Projects

I have successfully completed 4 group projects. During these I worked on my collaboration, time management and organisation skills, and discovered how to utilise other's strengths.

Storycraft

A University club which meets once a week to discuss and explore themes in creative writing. Encourages creative thinking and helps me work on my personal interest of writing.

Youth Brass Band and Brass Ensemble

I joined the Youth Brass Band after two terms of learning trumpet, practising so I was able to keep up with the other, older, members.

In my third year of high school, the music department started up a Brass Ensemble which I immediately

joined. Sadly, due to the constant changing of teachers, and the lack of performance opportunities, quite a lot of the members opted out. I, however, was an enthusiastic and active member of the Brass Ensemble until I left school.

Magazine Committee

In my last year at Awatapu, I was a member of the school Yearbook Committee. I personally designed and put together the leavers pages.

Drama

Though I'm not a particularly outgoing person, I studied drama for four years at school, performing in front of large audiences several times each year. I was able to achieve good marks in Drama but gave it up in my last year in favour of Art Design.

Awards

Awatapu College for 2017

Art Design Year 13 - Merit

Distinction Award for Academic Achievement

Mathematics with Calculus Year 13 - Excellence

Music in the School Community - Service

Performing Arts - Service

Physics Year 13 - Merit

Distinction Award for Academic Excellence

Victoria University of Wellington

Included on the Dean's List for Academic Excellence
